Part 5 – Answer These Questions

QUESTION 1 – Show a 1-line code example declaring an ArrayList of Strings named fruits,

Ans: `ArrayList<String> fruits = new ArrayList<>();`

QUESTION 2 – Show a 4-line code example adding the elements:

apple, banana, strawberry, blueberry

Ans:

```
fruits.add("apple");
```

```
fruits.add("banana");
```

```
fruits.add("strawberry");
```

```
fruits.add("blueberry");
```

QUESTION 3 – Show a 1-line code example printing the banana.

Ans: `System.out.println(fruits.get(1));`

QUESTION 4 – Show a 1-line code example changing the banana to acai.

Ans: `fruits.set(1, "acai");`

QUESTION 5 – Show a 1-line code example removing the banana.

Ans: `fruits.remove("banana");`
